

CASCADIA PLANTER

REVIEW ALL STEPS BEFORE STARTING ASSEMBLY

ASSEMBLED PRODUCT

Assembly
options

**Tiers are fully
assembled out
of box.**

PRELIMINARIES

Recommended Installation

Planter is intended for use in garden area, where plant roots can reach deeper soil. If placing planter on patio or other non-porous surface, we recommend the included plastic bottom be placed inside the base tier.

Optional Painting or Staining

If you wish to stain or paint your Cascadia Planter, we recommend applying before planting to ensure fullest coverage. Use a high quality exterior stain or paint.

INSTRUCTIONS

1. Choose if you want to plant in or through bottom level.
2. Choose location for planter placement. Location should be considered permanent.
3. Place largest planter tier.
4. Pack soil where next tier will be placed. Sequential tiers may be centered or aligned to one side or corner of the base tier (as shown).
5. Place next tier and pack soil in it.
6. Repeat with remaining tier and add plants.

Win FREE Arboria Products

Give us feedback about this Arboria product and be entered into a drawing to win Arboria goods. It's easy, go to www.Arboria.com, choose a product then click on the link to **review**. Be sure to enter your email and telephone so that we may contact you if you win. **Upload a photograph for an extra chance to win.** Visit www.Arboria.com for official rules. No purchase necessary.

ASSEMBLY INSTRUCTIONS

CASCADIA PLANTER

ENVIRONMENT

Congratulations, this Arboria garden structure is crafted from natural and chemical-free Western Red Cedar. Wood, as a building component, is recognized by the USDA¹ as yielding fewer greenhouse gases than other common materials. The use of wood provides substantial environmental benefits when compared to oil-based plastics. Using natural, untreated wood in your garden is not only the beautiful choice, but it reduces the exposure of plants, people and animals to potentially harmful chemicals.

You can trust the Arboria name for environmentally conscious, exceptional outdoor products.

¹USDA.com Release No. 0426.11

ABOUT YOUR PRODUCT

This Arboria garden structure is made from natural and untreated Western Red Cedar, a species that is known for its natural resistance to pests and decay. This product features furniture-style craftsmanship to ensure strength and durability over the years to come.

Like all wood products subjected to weather, small hairline cracks may develop. These should in no way impair the strength and usefulness of the product.

CARE AND MAINTENANCE

If left unstained, your Arboria garden structure will silver within a year or two of exposure to the elements. Silvering is a natural occurrence and is often considered a desirable look. The overall integrity of your garden structure is not compromised during this process. The inherent rot and pest resistance of the wood will provide a degree of protection and help your garden structure to endure over the years.

If you wish to further protect your structure from the long-term effects of aging or to stabilize the color/finish of your product, we recommend applying a quality water-based finish. Best results can be achieved by using Penofin (www.penofin.com, 1.800.PENOFIN) as per manufacturer's instructions. If you desire to paint your product, we recommend a quality oil or acrylic primer coat prior to applying the final coat(s). Be sure to allow sufficient time for your product to dry. Avoid applying finish to any metal or other non-wood parts.
